

Patient Portal User Manual

Synthetic demonstration policy for Northstar Community Hospital. Version 2026-06-14.

Account activation

Use the one-time activation link sent after registration. The link expires after 72 hours. Portal Support can issue a replacement after identity verification.

Secure sign-in

Use a unique password and multi-factor authentication. Never share a verification code. Portal staff will not ask for a password.

Appointments

The portal can request, review, cancel, or reschedule eligible appointments. Some specialty visits require staff review.

Messages and results

Portal messages are for non-urgent questions. Response targets are two business days. Many finalized results are displayed, but release timing varies.

Troubleshooting

Use Forgot password first. If the registered contact information is unavailable, call Portal Support at 555-0140.
Do not email identification documents.

Emergency warning

Do not use portal messaging for emergencies. Contact local emergency services or the nearest emergency department.
